DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest a device having all of the claimed limitations. In particular, while handheld electronic devices are well known, and input means including styluses and directional pads are known, there is no suggestion of a device which has a stylus and associated position location system which is used with a first set of instructional code, and a directional pad which is used with a second set of instructional code.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Howard and Harrison disclose handheld devices.
